

247656

2307U-107

IN THE UNITED STATES PATENT AND TRADEMARK OFFICE

In re the application of)
Robert L. Lundak) Examiner:
Serial No.:) Art Unit:
Filed:)
For: HIGH FUSION FREQUENCY) PRELIMINARY AMENDMENT
FUSIBLE LYMPHOBLASTOID)
CELL LINE)

San Francisco, CA 94105

Commissioner of Patents and Trademarks

Washington, D.C. 20231

Sir:

Please make the following amendments:

IN THE SPECIFICATION:

Page 5, line 16, change "3" to --8--;

Page 8, line 36, change "µg" to --µg/ml--;

Page 11, line 32, after "729HF" insert --sonicated
cell--.

REMARKS

After execution of the subject application, a number of minor errors or inaccuracies were noted. The correction from "3" to "8" is consistent with the Experimental, as set forth on page 10, line 16. The correction on page 8, is consistent with the intent to have a concentration, rather than a wait. The correction on page 11, is in accord with the immediately preceding sentence.

It is evident that there is no addition of new matter by the above amendments and the Examiner is earnestly requested

to enter the above amendments for a more accurated specification.

Respectfully submitted,

TOWNSEND and TOWNSEND

Date: 3/23/81
